The International Guide to Art Fairs and Antiques Shows,
edited by Eliza Carone

This is the guide to shows in America, Europe, and England between January 1 and June 30. Listings are presented chronologically, with two pages devoted to each show, giving dates, times, location, admission prices, contact information, the year the show was established, the sponsor and benefiting organization (if applicable), the average attendance, the average number of exhibitors (they range from 25 to 250), a list of expected exhibitors, and information on whether the show is vetted and if a catalog will be available.

Better than a datebook, it has large, full-color reproductions of artwork from expected exhibitors on each page. Three separate indexes are included: the shows alphabetically, the shows grouped by country and city, and the dealers (with phone numbers) who provided artwork for the illustrations.
